

ADEYEMI OLALEKAN ABIDEMI

UI/UX Designer

Lagos, Nigeria | +234 810 020 3575 | olalekanabidemi905@gmail.com | Portfolio: software-portfolio-plum.vercel.app

PROFILE

UI/UX Designer with a strong foundation in front-end engineering, giving me a rare end-to-end view of product design — from wireframes and prototypes in Figma through to shipped, pixel-perfect interfaces. Experienced designing user flows, onboarding journeys, and design systems for fintech, digital banking, and e-commerce products. Skilled at working closely with engineers and stakeholders to make sure designs are not just usable and accessible, but technically feasible and fast to build — because I've built them myself.

CORE SKILLS

- Design: Wireframing, Prototyping, User Flows, Responsive & Mobile-First Design, Design Systems, Component Libraries
- Tools: Figma (wireframes, prototypes, component libraries)
- UX Practice: Accessibility (WCAG), Usability-focused iteration, Cross-browser & cross-device consistency, Stakeholder & client collaboration
- Design-to-Code Advantage: React.js, Next.js, HTML5/CSS3, Tailwind CSS — able to prototype, validate, and hand off designs with full awareness of technical constraints
- Collaboration: Agile ceremonies (sprint planning, stand-ups, retrospectives), cross-functional teamwork with PMs, engineers, and QA

SELECTED DESIGN PROJECTS

Sound Wave — Music Streaming App — *Personal/Team Project, Figma*

- Designed the end-to-end UI/UX for a Spotify-style music streaming app, covering onboarding, sign-in/sign-up, home dashboard, and library screens.
- Created wireframes and high-fidelity mockups with a cohesive dark-theme visual system, prioritizing content hierarchy for browsing, discovery, and playback.
- Mapped key user flows (onboarding → authentication → home → library) and designed reusable UI components (players, cards, buttons) for consistency across screens.

Afribuy — E-commerce Website — *Personal Project, Figma · Deployed*

- Designed the complete UI/UX for Afribuy, an e-commerce platform, from initial wireframes through final visual design.
- Took the design from concept to a live, deployed product, giving direct visibility into how design decisions perform in a real, shipped environment.

PROFESSIONAL EXPERIENCE

Junior Frontend Engineer | Conduet Technology

March 2025 – Present

- Translate Figma and UI/UX designs into pixel-perfect, accessible, responsive interfaces, working directly with designers to resolve edge cases and refine handoff.
- Build and maintain reusable UI components and design systems that stay consistent across multiple client projects.
- Partner with clients and stakeholders to clarify requirements, gather feedback, and align design intent with technical delivery.
- Ensure interfaces meet WCAG accessibility standards and behave consistently across modern browsers and devices.
- Collaborate cross-functionally in Agile ceremonies — sprint planning, stand-ups, and retrospectives — to keep design and engineering in sync.

Junior Frontend Engineer | Kay Vee MicroFinance Bank

Jan 2021 – Dec 2021

- Worked alongside UI/UX designers and product managers to deliver user-centric digital banking experiences for Loans, Savings, Current Accounts, and SME products.
- Maintained consistent branding and design standards across all customer-facing pages.
- Built reusable, validated forms to reduce user error and improve data accuracy.
- Resolved cross-browser inconsistencies to keep the experience consistent across Chrome, Firefox, Safari, and Edge.

Junior Frontend Engineer (Intern) | Bowen MicroFinance Bank

May 2020 – Nov 2020

- Partnered with UI/UX designers to transform Figma designs into responsive, pixel-perfect customer onboarding and KYC interfaces.
- Designed and built reusable components to keep banking portals and dashboards visually consistent.
- Applied WCAG accessibility guidelines and semantic HTML to improve usability for all users.
- Conducted cross-browser and cross-device testing to validate the experience across desktop, tablet, and mobile.

EDUCATION

Bachelor of Science in Business Administration

Bestower International University | Jan 2022 – Feb 2025
